### EFFORTS BEING MADE TO CUT PENDLETON OFF ROUTE

What an effort is being made to route the proposed good roads highway from the Idaho line to Portland by way of Burns and thus cut off Baker, La Grande and Pendleton and that it behooves the citizens of the three large eastern Oregon towns to take steps to block the move is the substance of a letter received this morning by the Commercial Association from Secretary W. E. Meacham of the Baker Commercial club and he states further that a meeting will be called in Baker in the near future for the purpose of discussing the matter. He asks that Pendleton be represented at the meeting. Idaho people, he writes, want the highway to pass through Baker, La Grande and Pendleton and, inasmuch as such an improved highway will become popular with auto tourists, he thinks it very necessary that steps be taken to prevent it circling around.

**None Like the Round-up.**  
There is no show like the Pendleton Round-up in the opinion of John Spain, one time champion buckaroo who has participated in wild west shows in many towns. While here today he declared that the Pendleton exhibition has every other show of its character "skinned in a hundred ways" and everybody knows it, he states. He declares that people from British Columbia will be here this year as spectators and participants.

John M. Bentley, well known pioneer Pendletonian, this morning received an announcement from Tacoma that his youngest daughter, Miss Mable Bentley, who has been living during the past year or more with her sister, Mrs. Carrie Alexander, in Auburn, Wash., had been married in the former city yesterday to Samuel Shove. **Doffed Leg and Trousers.**  
Hot, weary and a little the worse for alcohol, a man by the name of Martin Costello yesterday afternoon unstrapped his home-made wooden leg, doffed his trousers and stretched himself back of a Main street store to enjoy the shade. Unfortunately, Patrolman Alex Manning observed him and, not appreciating his appearance, compelled him to put on his pants and escorted him to the cool recesses of the city bastille. He was, however, unable to affix the wooden leg and was forced to act as a crutch for the cripple himself.

**WATER COMPANY TO COMPLETE PIPE LINE**

Coots Bay Organization Must Finish Extensions at Marshfield and Bend in 10 Days.

SALEM, Ore., July 31.—The State Railroad commission has ordered the Coots Bay Water company to complete its pipe line extensions at Marshfield and Bend within 10 days and its reservoir within 60 days.

Several months ago the commission made an order in the cases brought by Marshfield and Bend against the Water company directing that a reservoir with a capacity of 1,500,000 gallons, be erected, and certain pipe lines be built and flume water rates.

The company asked for a rehearing, declaring the rates were too low, and also for an extension of time to make the improvements. The rate matter is under consideration.

Bay City will erect a fish cannery and a cold storage plant.

### NEWS OF FARM AND RANGE SENDS PHEASANTS TO EAT UP GRASSHOPPERS

In order to assist in the killing off of the grasshoppers which are hurting the alfalfa and other crops in the west end of the county and in the bottom lands this year as well as to help in stocking the county with game birds, W. L. Finley, in charge of the educational and biological work of the state fish and game commission, is sending several hundred China pheasants to this county, according to a letter received this morning from him by District Warden E. F. Averill.

Nothing in the papers that the "hoppers" are unusually numerous in this county this year and are doing considerable damage, he has decided to send between 200 and 500 of the pheasants which, by observation, have proven to be the natural enemies of the grasshoppers. These will be distributed over the county in the sections where the grasshoppers are most numerous and, while they will not be of much service this year, as they multiply under the protection given them by the game officials, they will prove great friends to the farmer.

There will only be one show this year instead of two. The railroad company will offer several hundred dollars in prizes and will haul the exhibits to and from the show without cost. All farmers in territory tributary to the company's lines are eligible to enter. The annual shows are held for the purpose of proving to the people of the inland empire that their soil and climate is as much adapted to corn raising as that of the middle states and would increase their revenue. Last year the show was held in Pendleton and proved a revelation to those who attended.

### FIRE BURNS OVER 2000 ACRES ON DESCHUTES

MORO, Ore., July 31.—Fire on the Deschutes river west of Moro near the Peetz, Messenger and Cushman farms burned about 2000 acres of grass pasture land.

The fire is supposed to have caught from a railway train. It burned all night.

No grain was burned, although the fire came into farm lands from which grain had been recently harvested.

**Hop-pickers Galore Apply.**  
SALEM, Ore., July 31.—Hop-growers report that the number of men, women and children who have applied for work picking hops this year is larger than ever before. Hand-draws have applied in person and many more by letter and through friends. As a result of a number of growers have already employed all the pickers they will need.

A policy of keeping pickers busy all day will be adopted by leading growers this year. Heretofore in many of the yards so many persons were employed that the dryers were filled early in the afternoon and work was stopped. This plan caused more or less discontent among pickers and resulted in decreased ranks.

has postponed his proposed trip to Namur. He is in frequent conference with his ministers.

**Canada Prepares to Help.**

OTTAWA, Ont., July 31.—Canada is making preparations to aid England with regiments should the mother country become involved in the European conflict. An emergency meeting of the Canadian military council was held here. Minister of Militia Hughes presided.

It was learned that the meeting was called in consequence of messages from the war office to consider what steps should be taken to protect, if necessary, Quebec, Montreal and other cities on the St. Lawrence river, and St. John and other Bay of Fundy ports from raiding cruisers.

The defenses of Halifax are considered sufficient, but the St. Lawrence and Bay of Fundy ports will be protected by mines should England become involved.

The most expeditious way of raising regiments for service with the British armies in Europe was considered. If England enters upon active hostilities Canada will at once offer aid, and soldiers will be enlisted.

Canada sent 8000 men to the aid of England in South Africa.

It is estimated that Canada could raise, arm and embark 30,000 men in less than two months. A plan of mobilization has been prepared by the Canadian headquarters staff.

The British government has been notified to count on aid from Canada.

A call for the Canadian parliament to meet will be made if conditions grow more threatening.

**BERLIN, July 31.**—(Consors)—Orders have been issued for practically all ships in the German reserve navy, including all liners convertible into warships, to remain in port. A rigid censorship is being maintained. Messages concerning army and navy movements are being held up entirely.

**The Hamburg American liner** Vaterland has been ordered held at New York pending further orders. The Imperator's sailing from Hamburg has been cancelled. Other ships on the German reserve list are being detained in port.

**Liners Are Held.**  
NEW YORK, July 31.—In view of the German government's order preliminary to requisitioning the Fatherland's merchant shipping for naval purposes, if the Kaiser becomes involved in war, all passes were revoked and nobody was permitted to enter the Hamburg American docks here. The liner Vaterland was ordered to remain in port pending further orders. The liner President Grant, which sailed Thursday, was recalled by wireless.

### Britain Acts.

MONTREAL, July 31.—The British admiralty requisitioned for naval purposes today the Canadian Pacific Trans-Pacific liner Empress of Asia, now at Hong-Kong.

### LANE IN NO SYMPATHY WITH FILIBUSTER

Oregon Senator, While Opposed to Some Items, Has Voted Constantly for Passage.

WASHINGTON, July 31.—While Senator Lane is opposed to some items in the rivers and harbors bill, he has voted consistently to bring it up and keep it up until it can be passed. He will urge "throwing out some of the bad stuff in it," but in default of this he will support the bill, even though he can not get it amended. He is not in sympathy with the efforts to defeat the bill by filibuster.

### Team Goes Over Bridge.

MEPFOED, Ore., July 31.—Falling from the Bear Creek bridge at Central Point 20 feet to the rocks below when their team became frightened at a parol in a passing carriage, Mr. and Mrs. J. C. Horn, of Agate, had a narrow escape from death.

The team backed through the hand rail on the bridge and fell on the wagon, crushing it, the occupants escaping by falling under the steel seat back, which protected them. Mr. and Mrs. Horn were taken out unconscious and rushed to the hospital, where the doctors declare both will recover. Aside from bruises and scratches the horses were uninjured.

### D. C. N. G. in Camp.

WASHINGTON, July 31.—The District of Columbia National Guardsmen left here today for a ten-day encampment at Virginia Beach, Va., at the "war games." The brigade went by rail to Chesapeake Beach and thence by steamer to Norfolk.

### MUCH ABDUCTED GIRL KIDNAPED BY FATHER

CENTRALIA, Wash., July 31.—An exciting scene was enacted in Centralia when Edna Cole, a North Carolina girl for whose alleged abduction her aunt, Miss Carrie Tinsley and Mrs. Betty Hutchinson, of this city, recently fought extradition, was again "kidnaped," this time by her own father.

With Dave Thrash, resident of Pe Ell, an old schoolmate of his, Cole sped to Gate City in an auto, where he caught a train.

The child's aunts vainly begged the police to arrest Cole, but the officers asserted that they were powerless to stop the father. The women then went to Chehalis, where they secured a warrant charging him with abduction. Cole had a start of an hour and successfully eluded the officers until today.

### Carrazza Sees Light.

WASHINGTON, July 31.—Direct word from General Carranza announcing that "if Carrabal offers to surrender unconditionally, I believe the present situation in Mexico soon will be satisfactorily solved" came to the constitutional junta in Washington.

Carranza's message, dated at Tampico, directed Rafael Zularan, head of the agency, to deny any reports that he was endeavoring to place difficulties in the way of establishing peace. Members of the constitutional agency said they interpreted Carranza's reference to "unconditional surrender" as a reiteration of Carranza's insistence that he would not recognize the Carrabal government as legally established.

They predicted that the question of amnesty and guarantees for the federalists would be a stumbling block during the forthcoming parleys over the transfer of government because they said people in the territory once controlled by Huerta now placed confidence in Carranza's assurances that he would attempt no wholesale reprisals when he entered Mexico City.

Confirmation of reports that a friendly understanding had been reached between the constitutional and Zapata forces was received by the junta.
